GREAT HOPE IN BOYS' CLUBS There's a new kind of club in the hands of policemen. It is the Boys' lub. In New York City there are 75,000 underprivileged boys who are members of the Pelice Athletic league of that city. Last year 40,000 boys joined this organization supervised by policemen intent on helping the city's slum lads cooperate with the law and be good citizens instead of considering every bluecoat the natural enemy of childhood. Playground events, sports contests, signt nights and like continuous activities all over that great metropois have helped reduce its juvenile crime appreciably.

The same general plan is operating in many cities. Whether inicated by the police, religious leaders or business men, the movement has acquired momentum and promises to be very effective in stemming the crime wave

JOE LOUIS HAS BEEN MADE FAVORITE

By LAWTON CARVER International News Service Sports Editor

NEW YORK, June 21.-The "Big Town" today felt itself cought and held fast by that special form of hysteria which som how permeates everything around here on the eve of the most lavish of all sporting speciacles—a battle for the heavy-weight championship of the world. In this instance he incentive is Jee Louis, the sepia title-holder, at-tempting to avenge he knockout he self who will climb it to the Yankee troit. Stadium ring tomorrow night. For the first time since the man-mauler from Manassa was in business a million dollar gate will be counted, according to Promote: Mike Jacobs. From all over the world, other-

wise quite level-bended visitors will join New Yorkers who can afford it in paying as much as \$30 for tickets for what may be a pulse-quickening back-room brawl, or they may get no more for their money than a minute or less of action by virture of a quick knockout or 15 dull and listless rounds. \$330,000 or so tomorrow night on the basis of a 40 per cent payoff for his end, and thus will add to his fast growing riches, with the promeet of making a payday half million dollars or so in Sep-

tember against Max Baer.
It's all very fantastic--including the bettine odds, which seem to have established Louis as a 2 to I favorite to win and even money or 6 to 5 to do it by a knockout. This is scarcely in keeping with the fact that in their last meeting Schmeling scored a 12-round knock-
